SHERMAN'S BOOM.

Springfield, Ill. SPRINGFIELD, June 1st .- The bad weather Sherman reception at the State Capitol, so far as the outdoor demonstrations are concerned. About 12 o'clock rain set in, which continued at intervals, making it necessary to abandon the outdoor demonstration. Elaborate preparations had been made in the way of platform and seats in the front of the State House. During a lull of the storm about one thousand persons occupied their seats, but were driven returned to Albany more than well-pleased. sons occupied their seats, but were driven to the Representatives hall by the rain at 2 o'clock. At this point the committee determined to remove the demonstration to the shelter of the State House, and the crowd surged and pressed for entrance to the Assembly Chamber. In a short time two thousand persons had crowded into the galleries capable ordinarily of holding would be rapped as his own specsors. the galleries, capable ordinarily of holding eight hundred, and the more favored, to

As Senator Sherman, accompanied Gov ernor Oglesby, Senators Cullom and Fare-well, State officers and a number of the managing committee, entered the hall there was loud and continuous applause. Senator Sherman was introduced by Governor Oglesby. Sherman, after paying a glorious tribute to the Illinois statesmen, Douglas and Logan, gave a sketch of the history of the two great political parties, since the repeal of the Missouri Compromise, showing the position of Republicans and Democrats, and the questions of the war, emancipation, reconstruction and

In the Southern States, Sherman said there was not an intelligent man in the and who does not know that Cleveland is President by virtue of a crime against the electoral franchise, including murder, arson, ballot-box stuffing, forgery and perjury, but for which Blaine would now be in his place. Continuing on the sub-ject, he said: "The poison of the success of these methods has already affected the elections in some of the great cities of the North, especially in Chicago and Cincinnati, where under the lead of Mackin and Tosney, the criminal classes resorted to some of the meanest of crimes to contro; the elections. Why should they not? BRITISH POLITICS. Liberal-Unionist Conference - Liberal

LONDON, June 1st .- The meeting of the

Radical Union to-day under the auspi ces of Chamberlain will probably tend to widen the split in the Liberal party Chamberlain has no intention of approach ing Gladstone, and thinks his own course is gaining ground, founding his belief on his cottish tour and the Stanstell election He is even inclined to insist on his origina proposal of an Ulster Assembly, and is no New York, June 1st.—Governor Hill longer willing to waive this part of his returned to Albany more than well pleased with his reception here. > The bulk of the Liberal-Unionists are simply waiting for Gladstone's death, and are convinced of their ability to keep the party together until that event. Their policy is, therefore, to mark time on the Irish question and support the Govern ment with no very large qualifications.
> Gladstone, on the other hand, relies ex clusively on popular feeling, and hopes for a gradual conversion which would render him independent of the Unionist leaders like Hartington and Chamberlain. Mean while his visit to Wales will be marked by a new Liberal departure. I am informed that he will make a tolerably specific announcement in favor of Welsh disestablishment, which will probably be a meas ure on which, after the settlement of th Irish question, the Liberal party will firs unite. Scotch disestablishment may b expected to follow in due course, though

> The new Electoral Committee will be appointed for London. Rumors were current at the conference that the Government would introduce probably during the autumn season, a Loca Government resolution in favor of the largest possible extension of local government to Ireland, subject to the supremacy of the Imperial Parliament and the protection of the Protestant minority. The conference was attended by two thousand delegates representing all parts of Great Britain. The tone of the speeches

was bitterly anti-Gladstonian. It was the first representative Unionist meeting where rreconcilable hostility to the Gladstonians has been the rallying cry. Chamberlain declared his belief that conciliation would be a mere deception.

A site has been selected at Coloma, El Dorado county, for the monument to be erected to the memory of James W. Marshall the discoverer of gold. The contract for the construction of the rail-

road from Shingle Springs to Placerville has been signed, and the road is to be completed within one year.

### SUBURBAN DEVELOPMENT BEGINS.

Yesterday the contract was the early completion of the railroad from Shingle Springs to Placerville.

In less than a year, probably within a few months, trains of cars will be running from Sacramento to the pioneer city of the mountains, and all the magnificent sugar pine region of El Dorado will be opened up to the State's markets, while the unsurpassed deciduous fruit section of that county will be brought, practically, to the door of the chief fruit shipping depot of the coast, Sacramento.

All the region between this city and Placerville will become, in a new sense, suburban to Sacramento, and be speedily settled by an industrious people. Where there is now between Sacramento and Placerville probably 2,000 population, we will have, inside of two years, three or four times that number. The hill lands will come into a fresh and eager market; the sheltered valleys of the mountains teem with new production and thrifty population. Old water-powers neglected, and others never utilized, will become vital factors in a new industrial era.

Water companies will strive with one another to reach the lands to which railroad facilities are to give new value-Where now there are desolate places there crumbling to pieces. Journals that attain will soon be the liveliest activity and the to eminence and permanency and the remost earnest industry.

Without a particle of enthusiastic exaggeration on this subject, we venture the assertion that since the construction of the Central Pacific Railroad no project has been put on foot of such profound interest to Sacramento.

El Dorado and Amader counties, and all the regions between this city and those counties, are suburban to Sacramentotributary to it; of commercial right its area for purchase of products and sale of supplies.

If any have conceived that our suburbs are confined to lands immediately upon city boundaries, they have failed to com prehend what is meant by suburban Sacramento; for it includes all the section between this city and Galt in one direction; this city and the cultivatable hills of Placer in another; the bottom lands of Yolo and Solano in another, and especially the foothills and valleys of El Dorado and Amador counties. All these are immediately tributary to Sacramento. All these it is our interest to settle thickly with tillers of the soil, and all these will contribute more and more, as time rolls on,

to Sacramento's prosperity. With the subdivision of large land holdings, which must come about, and be persistently urged; the completion of the road to Placerville; the incoming of settlers; the enhancement of land values; the opening gave the British Government clearly to up of regions hitherto practically sealed against development, and with local improvement and adornment, Sacramento will thereafter be regarded as unfriendly. ACRES OF SPLENDID LAND 164 ACRES OF SPLENDID LAND, bath-house, stables, gas house and other buildings; there has been expended, at a low estimate, upward of \$140,000 on the property; an artificial lake and islaud, with bridge, is one of the beautiful attractions: around the lake are summer houses and pretty shade trees, where boats can sail around and fine trout fishing can be had; there is a small vineyard, grape arbors, fountains covered with ivy, beautiful walks, pretty groves of trees, a park, summer-houses

be had: there is a small vineyard, grape arbors, fountains covered with ivy, beautiful walks, pretry groves of trees, a park, summer-houses scattered over the grounds, a wilderness of flowers and banks of roses along the driveway; the orange trees, now in full bloom, and which bear bountifully, attest how favored this place is. It is the most lovely spot in California, and the place should be opened up as a Club. The attention of capitalists is called to the property. It can be made a splendid paying investment. It is offered at a price far below its value. The buildings alone are worth certainly \$40,000, at a fair estimate, not counting in the improvements made, or the land. The furniture, etc., goes with the property. All the rooms in the hotel and cottages are furnished and carpeted. There is a large dining-room in the hotel, reading-room, billiard-room and smoking-room in one of the buildings.

The Springs are famous and well-known throughout the State. The Sulphur Springs are a great attraction, and these alone have great value. As the property is a partnership, and the owners reside in different States, to make a sale they have decided to sell the property to close out the divided ownership.

For a company or private club to take hold of this fine property there is a fortune in it. The tract outside the hotel grounds could be divided in building lots, as there are hundreds of business men who would like to have a summer

I will not expand what I have now said, except to say that done in this way, our streets would be firm in winter, because the square excavations would be the best of bulkheads, and prevent the spread of the gravel. Free Trade. The reduction of internal revenue and he taking off of revenue stamps from pro prietary medicines, no doubt has largely benefited the consumers, as well as reliev ing the burden of home manufacturers Especially is this the case with Green's Au gust Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen has been added to increase the size of the pottles containing these remedies, thereby giving one-fifth more medicine in the 75 ent size. The August Flower for Dyspepsia and Liver Complaint, and the German Surup for Cough and Lung troubles, have perhaps the largest sale of any medicines in the world. Naturally modestshe suffers on until forced to consult a physician regarding some female difficulty which she well knows is sapping her strength. All this embarrassment can be avoided and a cure effected by purchasing Dr. Pierce's "Favorite Prescription" of your druggist, and taking as directed Price reduced to one dollar.

DESTRUCTIVE WINDS AND INSECTS .iticultural Officer Wheeler is constantly eceiving many reports of damage resulting om the hot winds of last Friday and Satarday. H. W. Crabb, of Oakville, one of the largest wine makers in the State, writes that the hot wind has dried up the drop o moisture in the little cup that receives the ollen in the grape flower, and in many nstances the berry will not fructify. E. L. Dorn, of Escondido, San Diego county, reports that small beetles, similar to those which created considerable damage in the northern part of the State, have been destroying the foliage of from 300 to 400 yines each day for some time past in the scuthern portion of the State.-S. Indigestion.
Many persons lose appetite and strength, become emaciated, suffer, and die, because of defective nutrition, who might have been restored to health by Ayer's Sarsaparilla. This medicine acts upon the digestive organs, through the blood, and has effected many wonderful cures. For years I suffered from Loss of Appetite and Indigestion, and failed to find relief, until I began taking Ayer's Sar-

saparilla. Three bottles of this medicine Entirely Cured me, and my appetite and digestion are now perfect.—Fred G. Bower, 496 Seventh st., South Boston, Mass.

I have, for years, suffered acutely from Dyspepsia, scarcely taking a meal, until within the past few months, without enduring the most distressing pains of Indigestion. My stomach sometimes rejected all food. I became greatly reduced in strength, and very despondent. Satisfied, at last, that my trouble was of a scrofulous nature, I began taking Aver's Sarsaparilla, and believe it has saved my life. My appetite and digestion are now good, and my health is perfect.—Oliver T. Adams, Spencer, Ohio.

Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up multi strong apough to reuse of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

idered incurable, but it has yielded to the cura-ive properties of Swift's Specific—now known all over the world as S. S. Mrs. Balley, of West Somerville, Mass., near Boston, was at-tacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say that the disease was -LEPROSY-

And consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off one at a time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 pounds. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Fibally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her All-wise Creator. Her husband hearing wonderful reports of the use of Swiff's Specific (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. until last February; every sore was healed; she discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Bailey, is in business at 17½ Blackstone street, Boston, and will take pleasure in giving the details of this wonderful care. Send to us for Treatise on Blood and Skin Diseases; mailed free.
